## Engineering Design for Construction Agreement

**Reference:** Scope of Support

The purpose of this agreement is to provide subject matter advisement, Professional Engineering services, as needed only support, and/or turn-key single contact responsibility design-build for construction projects.

FRP/RFB Specification Writing	ISO / GMP Audit Support	General Contracting
Proposal Evaluation	Project Management	Permits
Troubleshooting / Diagnostics	Data Analysis	Employee Training
Process Piping – Racks	Tank Farms – Pads – Structural	Secondary Containment – Slabs
Decision Support	SOP Writing	Equipment Layout
System Operation Manuals	PM Writing	Submittal Writing
Systems Integration	Shutdown Management	3rd Party Arbitration

We also offer engineering support for beforehand, afterward, and/or process related issues.

Standard Rates:

Engineering Support Hour: \$155	Engineering Design Hour: \$200	Project Management Hour: \$85
---------------------------------	--------------------------------	-------------------------------

The specific scope of each item will be mutually agreed upon and defined.
